

Direct Sort (TFHE)

Permutation Aveugle

- Soient les chiffrés de $T = [1,3,2,2]$ et $\sigma = (0,3,2,1)$

$$S_0 = [1,0,0,0] \implies R_0 = T \cdot S_0 = 1$$

Direct Sort (TFHE)

Permutation Aveugle

- Soient les chiffrés de $T = [1,3,2,2]$ et $\sigma = (0,3,2,1)$

$$S_0 = [1,0,0,0] \implies R_0 = T \cdot S_0 = 1$$

$$S_1 = [0,0,0,1] \implies R_1 = T \cdot S_1 = 2$$
